OBJECTIVE

As a student majoring in Information Technology, I am seeking an internship opportunity in a professional environment where I can apply my theoretical knowledge to real-world situations. I aim to develop my programming skills, project management abilities, and teamwork experience while contributing to the company's actual projects. I hope to learn from industry professionals and gain valuable experience to build a solid foundation for my future career.

WORK EXPERIENCE

MCI CONSULTING AND ANALYTICS JOINT STOCK COMPANY

10/2024 - 2/2025

INTERN BACKEND DEVELOPER

- · Built a robust and scalable API using Express with TypeScript
- MongoDB serves as the primary database to store user data, course information, and enrollment records.
- Implemented authentication and authorization using JWT to ensure secure access to API endpoints

EDUCATION

10/2021 - 06/2025

INFORMATION TECHNOLOGY

NATIONAL ECONOMICS UNIVERSITY

PROJECTS

E-Learning Platform

08/2024 - 09/2024

DESCRIPTION

- Develop and maintain services using RESTful APIs for E-Learning platform
- Develop the frontend interface separately using Next.js to deliver a responsive, SEO-friendly user experience
- Deploy the containerized application to AWS EC2 for production hosting, ensuring high availability and remote accessibility.
- Integrate the functionality of summarizing lecture content into text using AI

Technology used: :NextJs, Node.js, TypeScript, PostgreSQ, Docker, Github Actions **Github** :https://github.com/phong1608/LearnHub

Job Portal

06/2024 - 07/2024

DESCRIPTION

 Design and develop a Job Portal web application using ASP.NET Core and Entity Framework.

- Implement RESTful APIs to handle job listings, applications, user registration, and rolebased access for recruiters and job seekers
- Containerize the application with Docker to ensure scalability and ease of deployment.
- Set up a CI/CD pipeline using GitHub Actions to automate build and deployment workflows. Deploy the application to Microsoft Azure for production, ensuring high availability and continuous delivery.

Technology used:: ASP.NET Core, SQL Server, Docker, Github Actions **Github**: https://github.com/phong1608/JobBoardBE

SKILLS

Languages: C#, TypeScript (Node.js), Python **Frontend:** NextJS, ReactJS, TailwindCSS

Backend: ASP.NET Core, Express.js, NextJS

Database: SQL Server, MySQL, PostgresSQL, MongoDB **CI/CD**: Docker, GitHub Actions, Nginx, AWS EC2, S3

CERTIFICATIONS

02/2025

TOEIC (L&R): 905

04/2025

TOEIC (S&W): 270
